

Pay for your COVID-19 Vaccination Certificate through Easypaisa

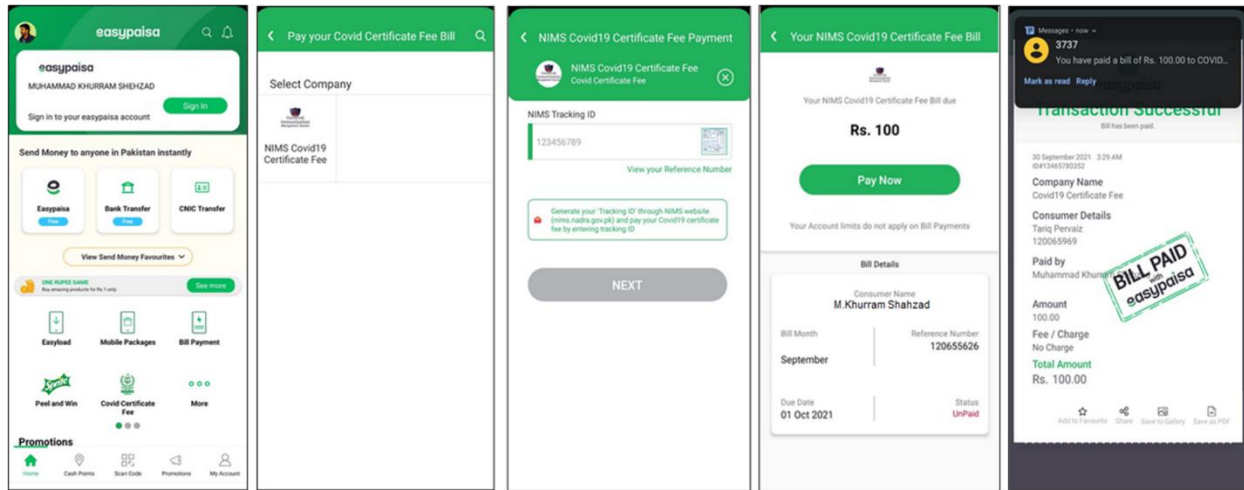

October 05, 2021: Continuing its efforts to provide convenient digital payment options to customers, Easypaisa, the country's leading digital payments App, has added a much-needed service to its portfolio. All Pakistanis eligible for COVID-19 vaccinations can now pay for their vaccination certificate through their Easypaisa wallet.

Easypaisa is the first digital payments platform to introduce vaccination certificate payments, thus enabling millions of Pakistanis who lack access to other modes of payments such as credit or debit cards. Customers can now pay for their vaccination certificates instantly without any extra hassle or charges.

COVID-19 vaccination certificates can be downloaded from the website of National Immunization Management System (NIMS). After filling in details on the NIMS website, customers can now opt for paying through the Easypaisa wallet or by visiting any one of the 170,000 registered Easypaisa agents across the country.

In order to pay the vaccination certificate fee through the Easypaisa App, customers can open the NIMS website on their phones, tablet or PC and click on the tab to obtain their COVID-19 vaccination certificate. The next window requires users to enter their CNIC number, date of issue and other relevant details. As users hit proceed, a payment prompt is initiated where they can choose to pay through Easypaisa, including other options too. Users can simply check the box under Easypaisa. A unique transaction number will be generated which users can enter into the Easypaisa App or pay via an Easypaisa agent for successful payment and then go back to the NIMS website to download their vaccination certificate instantly.

Step 1	Step 2	Step 3	Step 4	Step 5
Customer clicks on "Covid Certificate Fee" on home screen	Customer clicks sub-category "NIMS Covid19 Certificate Fee"	Customer enters the 'tracking ID' generated through NIMS web	After successful inquiry against ID customer clicks 'pay now'	Transaction Successful Receipt displayed

Commenting on the development, Omar Moeen Malik, Business Head – Easypaisa said; “At Easypaisa, we have always tried to bring convenient, easy and secure payment services to all Pakistanis. For us, it is an honor to have partnered with Nadra to facilitate COVID-19 vaccination certificate payments, especially at a time when vaccination certificates have become a mandatory requirement everywhere. As Pakistan’s No.1 payments App, it was also our national duty to enable this service without any extra charges in this critical time.”

Throughout the pandemic, Easypaisa has been at the forefront of providing convenient digital solutions to millions of Pakistanis. With almost 10 Million customers using the Easypaisa App in the last 30-days across the Android and iOS platforms, Easypaisa is the most used Pakistani App across all categories. Easypaisa remains committed to transforming Pakistan into a cashless and financially inclusive society by creating value through the power of collaboration & technology.

About Easypaisa / Telenor Microfinance Bank Limited

Easypaisa, powered by Telenor Microfinance Bank is at the forefront of revolutionizing fintech in Pakistan by delivering innovative, cutting-edge technology solutions. We began our journey in 2005 by establishing a national footprint, with the launch of micro-lending programs. In 2009 we created history by launching the country's first mobile banking service that has evolved to become the most used digital payments platform.

Backed by the largest fintech in the world, Ant Group (affiliate company of Alibaba Group), and the leading multinational organization across Scandinavia and Asia, Telenor Group, we aim to promote financial inclusion by empowering all Pakistanis to adapt convenient and secure digital financial solutions.

OUR VISION | Creating a transparent economy that all Pakistanis can participate in |

OUR MISSION | Transform Pakistan into a cashless and financially inclusive society by creating value through the power of collaboration and technology |
